ARTICLE GUIDELINES

Journal of Liberty and International Affairs is a triannual (3 issues per year), international, open-access, and peer-reviewed journal published by the *Institute for Research and European Studies*. It welcomes submissions from political sciences, international relations, international law, and related fields. Articles are subjects to initial editorial screening and anonymous peer-review at least by two independent reviewers. The length and effectiveness of the peer-review process will largely depend upon the care used by authors in preparing their articles. The language of the articles is English. Articles without positive classification of the reviewers will not be published in the *Journal of Liberty and International Affairs*. The authors are strongly encouraged to read the article guidelines carefully before preparing an article for submission, and to check the article for conformance before submitting it for publication.

Journal of Liberty and International Affairs is identified by an International Standard Serial Number (ISSN) and each article carries a Universal Decimal Classification number (UDC), which serves as a unique article identifier and a Digital Object Identifier (DOI) which is a persistent identifier or handle used to identify objects uniquely, standardized by the International Organization for Standardization (ISO). The publisher and the journal have registered deposit policy with SHERPA/RoMEO. All the articles are freely available online upon publication. They are published under the liberal Creative Commons Attribution 3.0 Unported License (CC-BY). Each article is archived in SSOAR with assigned URN (Unique Resource Name), which is a persistent identifier (PID) that enables unequivocal and permanent access to the publication and its scientific citation. The author holds the copyright and retains publishing rights without restrictions. Articles that have been accepted, will be published on the website of the journal and may be distributed to other online repositories or the author's pages on Academia.edu. In order to provide visibility of the published work, the journal is indexed and abstracted in multiple academic repositories and search engines. The journal editors share announcements, news, and related articles about the topic of the journal on Facebook.

Criteria for Publication

Articles should represent a substantial advance in the particular field within the scope of the journal in terms of originality; importance to researchers in the field; and interest for readers and researchers outside the field.

Anti-Plagiarism Policy

The publisher and journal have a policy of **"Zero Tolerance on the Plagiarism"**. All articles will be checked by "PlagScan" (http://www.plagscan.com) before being sent to reviewers. If the case of plagiarism or duplication is detected, the article will be immediately rejected. If plagiarism or duplication is detected after publication of the article, the journal Editorial Board has the right to issue a correction or retract the published article.

Open Access Policy

Journal of Liberty and International Affairs is a fully open access journal, which means that all articles are freely available, ensuring maximum, worldwide dissemination of content, in exchange for an article publication fee. The journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge. Published material can be re-used without obtaining permission as long as a correct citation to the original publication is given.

Peer-review Policy

Journal of Liberty and International Affairs is a peer-reviewed journal, all articles being examined by researchers with credentials in the article's field of study before they are published. Articles are subjects to initial editorial screening and anonymous peer-review by two reviewers who will be selected by the editors. This journal operates a closed peer-review process, meaning that reviewers will not know author details and will themselves remain anonymous to the author. *Journal of Liberty and International Affairs* follows double-blind peer-review policy strictly.

Copyright Policy

- Authors retain copyright and grant the journal right of first publication with the work simultaneously licensed under a Creative Commons Attribution 3.0 Unported License that allows others to share the work with an acknowledgement of the work's authorship and initial publication in this journal. All materials are published under an open-access license that gives authors permanent ownership of their work.
- Authors are permitted and encouraged to post their work online (author's pre-prints on author server or institutional server only, while the author's post-prints on author's personal website, departmental website, employer's website or institutional repository) prior to and during the submission process, as it can lead to productive exchanges, as well as earlier and greater citation of published work.
- Published source must be acknowledged.
- Submission of an article implies that the work described has not been published before and that it is not under consideration for publication elsewhere.
- Authors are free to add (generate) DOIs to their articles published in *JLIA* using the Research Gate performances, with putting proper information of the published source.
- The journal editors are not responsible for any possible violations of existing copyright in articles published in the journal all responsibility is on the authors of those articles. The journal or publisher is not responsible for subsequent uses of the work. It is the author's responsibility to bring an infringement action if so desired by the author.

Submission Preparation Checklist

Before submitting the article, author(s) should check the following list:

- The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).

TITLE PAGE

Article title should be concise and informative, max. 100 characters with spaces. Titles are often used in information - retrieval systems. Avoid abbreviations and formulae where possible. All financial support for the work in the article is listed in the first footnote, the reference to which is placed at the end of the title.

Article title: Times New Roman; 14 pt; bold; alignment centered; single line spacing; All Caps.

ABSTRACT

All articles should start with the abstract, between 100 and 150 words. The abstract should state briefly the purpose of the research, the research intention, the methods, the principal results and major conclusions. An abstract is often presented separately from the article, so it must be able to stand alone. Non-standard or uncommon abbreviations should be avoided, but if essential they must be defined at their first mention in the abstract itself. In combination with the title and keywords, the abstract is an indicator of the article content.

Authors should remember that online systems rely heavily on the content of titles and abstracts to identify articles in electronic bibliographic databases and search engines. They are therefore requested to take great care in preparing these elements.

After the abstract, provide a maximum of 5 - 7 keywords, but be consistent, and avoiding general and plural terms and multiple concepts (avoid, for example, "and", "of"). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible. These keywords will be used for indexing purposes.

Abstract: Times New Roman; 12 pt; single-line spacing; justify.

Example:

Abstract

Lorem ipsum Lorem ipsum.

Key words: word; word; word; word; word; word
